# CHAIR FOR THE FUTUR

Innovative design is complimented by ergonomic efficiency, offering fully adjustable motion in the upholstered back support, arm rests and seat height, a student can create their own personal working environment suited to their working style. Optimisation of an ergonomically sound working station promotes healthy wellbeing.

## FUTUR

The FUTUR task chair is designed to provide bespoke lumbar support for every user, through an innovative design that offers functionality and complete ease of use.

Featuring a reclining tilt mechanism this allows a student to achieve optimum comfort, enabling for maximum productivity, which is essential in working for extended periods of time.
